

Exporting Dutch Point Account Information to Financial Software

Your Dutch Point share, certificate, loan accounts, and Visa credit history can be easily exported to Quicken®, Microsoft Money®, or to a comma delimited file. *The purchase of additional financial software may be required.*

Exporting Share, Certificate and Loan History

After logging into DPCU OnLine, **click** Accounts then Summary from the menu on the left. **Click** on the share, loan, or certificate you wish to export from the list displayed.

Click the diskette  icon located in the upper right hand corner of the screen. The export diskette is displayed each time you are in an account history screen.

Click your desired format from the list presented and click the Export Data button.

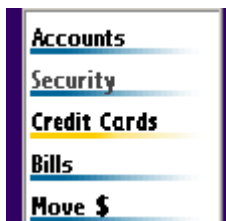

Please select an Export format

Return to History Export Data

Downloading Visa Credit Account History

After logging into DPCU OnLine **click** "Credit Cards" from the menu on the left hand side of your screen.

Your Visa credit account(s) will be displayed – **click** the card number. You will be connected to the Visa Infolink site.

Once in the Visa Infolink site, click "Card History" from the menu in the top section of the page.

At the bottom of the screen you will find the choices that are available for downloading.

To download or print your Card History Results, click the desired option below:

Note: Only 2004 and prior versions of Quicken download functionality is supported in this application.
